Dearest Siblings, Your liars, and Nital Gosai,

Tanja, dearest... Didn't You tell Me that the reason You should be Acting as dad's Trustee was because You are the 'responsible one' and some One needs to deal with the \$3 million in claims? When were You planning to do that?

Let Me know, because if You are not going to address these claims, I Will require a formal letter of release from Nital on behalf of her clients.

I have sent this email to My siblings, their liars posing as lawyers, and Greg McConnell who is the lawyer for Tiffany Singh and provided testimony to the Court that Tiffany Singh is the duly appointed Trustee and therefor had exclusive right to steal My father's ashes.

Tiffany Singh is a grifter and a fraud, and she is liable to Me for \$3 million dollars for stealing My father's ashes while failing to address these claims she knows she is responsible for. The fact My brother and sister have been covering for her is nothing short of astounding. I would never have imagined My own siblings were so morally and ethically bankrupt.

We are going to need to figure this out, Nital, so I look forward to hearing from You. I believe Your clients and the other injured parties are entitled to the full three million I am as King for from Tiffany Singh for stealing My father's ashes and failing to Honour his obligations.

Thank You, hope this day finds You all feeling Fabulous,

King Sean, House von Dehn,
Hand of Stephen,
The Kingdom of Heaven Found a Sean
